
Correction to
Lancet Public Health
2020; 5: e672–81

Li X, Wu C, Lu J, et al. Cardiovascular risk factors in China: a nationwide population-based cohort study. Lancet Public Health 2020; 5: e672–81—In this Article in table 1, the overall number of individuals with high cardiovascular disease risk should be 163 470 instead of 16 470, and the number of participants in rural areas with high cardiovascular disease risk should be 102 761 instead of 103 761. These corrections have been made as of April 26, 2021.
